iConnect Home Setup

Step	Action
1.	<p>To set up a home computer to access your iConnect applications/desktop, first go to https://www.citrix.com/products/receiver/ and click 'Download Receiver for Windows'.</p> 
2.	<p>The executable should now download. Once complete, click 'Run'. You may be prompted to enter administrator credentials.</p> <p>The Citrix Receiver installer will now load. Click on the start button to begin installation.</p> 
3.	<p>On the next screen tick the box which says 'I accept the license agreement' and click 'Next'</p> 

4.	On the next screen leave the Enable Single Sign-On unticked then click the button which says 'Install'. At this point the installation will begin. On the final screen click 'Finish' to complete the installation.
5.	Browse to www.icconnect.je and login as normal. 
6.	If you have any problems launching applications, you may need to add the site to your trusted sites. To do this in IE, go to 'Tools > Internet Options > Security > Trusted Sites > Sites' and add it in there. 
7.	Close and re-open your web browser for these changes to take effect.
